DIGITAL JOURNEY MAP

WHAT IT IS

The Journey Map helps participants connect the dots between the content of an online series and their existing knowledge

IDEAL FOR

Slowing down and providing space for participants to reflect on what they have learned and where they want to go from there

Any size   **5-15** min

REQUIREMENTS

Roles:

- 1x moderator

Supplies:

- Clickable Journey Map PDF
- Relaxing background music

HOW IT WORKS

The Journey Map is handed out before the program begins, via email. It should include a note explaining how the map provides space for personal reflection and notes throughout the course. You can also encourage learners to print out the map. That way, learners have something tangible to help recap learnings, build on existing knowledge, whilst identifying knowledge gaps, and follow through with the program whilst still having the grand scope in mind.

The map should be filled out at the beginning of the online series. Introduce the task and let learners capture their thoughts, insights, and questions on the page. You can play relaxing music in the background while they carry out this task. If you have smaller groups of 5-10, ask them to share their top insights or questions. Make sure to refer back to the map during the program, so people get into the habit of reflecting on their learning journey.

CONSIDERATION CHECKLIST

☐ What are the milestones during the online program that should be included in the template?

☐ Decide what you want your learners to reflect on. You can ask them to only focus on the input they receive in the online session and connect it with their prior knowledge, or even include current events happening in the world.

ADD ON

Learners can also create a map together, using collaboration tools such as Mural or Miro.

Well done. You have completed the program!

PERSONAL REFLECTION SPACE

What is one major thing that you learnt now that you didn't know before?

What are three things you want to do moving forward after this program? How will you do this?

Looking back at the letter you wrote to yourself at the beginning of the course, how have things gone?
