The Forum will organize the third <u>Community of Practice meeting on Risk</u>
<u>Management</u> in Singapore, hosted by Standard Chartered Bank followed by
DBS Immersion visit (Date to be confirmed).

The Forum makes existing SME data available to the public and collects original data when necessary. Specifically, the Forum curates **four datasets**:

<u>The MSME Economic Indicators Database</u>, which was updated in 2019, and records the number of formally registered MSMEs across 176 economies;

The IFC Enterprise Finance Gap Database, which estimates the degree of access to credit and use of deposit accounts for formal and informal MSMEs. The database currently covers 177 countries and will be updated in 2020;

The IFC Reach Dataset based on a portfolio reporting from 2004 to the present from IFC's 300+ client financial institutions, detailing the numbers and quality of loans made to SMEs. The Reach dataset was updated in February 2020;

<u>Women – SME Finance Categorized Indicators</u>, which identifies and categorizes Women, Business and the Law 2018 indicators of relevance to SME finance. We plan to update and expand gender disaggregated data in 2020.

The Global SME Finance Forum 2020 will take place in Bangkok, Thailand on 26-28 October.

Our flagship annual event attracts over **700** senior executives from **300+** institutions (banks, development finance institutions, fintech, and real sector companies) and **80+** countries.

This year we are launching a public 'Call for Insights' on what SME finance will look like in 2030. Best articles will be shared in a special report to be issued at the conference, and the authors will be recognized at the event.

B2B Marketplace

Our annual marketplace facilitates one-on-one meetings between our event attendees who highly value the opportunity to fundraise or source investments and forge partnerships.

The Forum provides its members with 2-3 day exposure visits to high performing regional or global financial institutions or fintechs to gather in-depth knowledge about an innovative aspect of their operations.

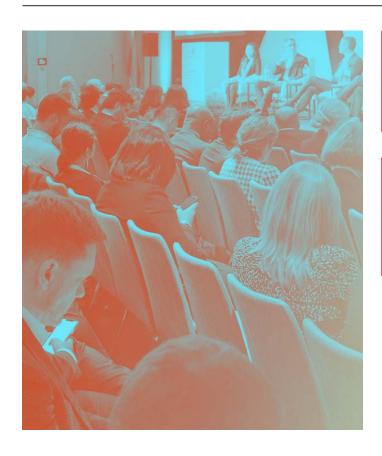

Already planned

Wells Fargo, SizeUp, Veem, and Kountable in San Francisco on January 22-24.

DBS in Singapore (Date to be confirmed).

To be confirmed

Equity Bank

Financial services provider headquartered in Nairobi, Kenya. It is licensed as a commercial bank, by the Central Bank of Kenya.

BRAC Bank

Private commercial bank in Bangladesh focused on SMEs. It was founded in 2001 to reach the large number of unbanked people which were not covered by traditional banks.

The <u>awards</u> recognize and celebrate financial institutions and fintech for their outstanding achievements in delivering exceptional products and services to their SME clients. Endorsed by the GPFI, the Global SME Finance Awards provide an opportunity for institutions to showcase and share their good practices and knowledge. Applications can be submitted until July 31st and winners will be announced at the 2020 Global SME Finance Forum in Bangkok on 26-28 October.

Relationship with G20 and other policy makers and regulators:

There will be a major **G20 Forum on financial inclusion for SMEs, women and youth in Saudi Arabia** in June where the Forum and its members will be represented.

We are also working on a call to action for the G20 on how countries can better encourage digital financial inclusion for SMEs, for which any and all inputs are welcomed

Our APEC work on improving financial markets infrastructure (credit information, secured transactions/movable assets regimes, payments systems) and on cross border data governance will continue and should produce opportunities during the year for speakers and audience in APEC supported events.
