## Cloud VPS

How to upgrade your old VPS to the new cloud platform? Cloud VPS is our answer to that question. Private servers, guaranteed resources and a next generation platform with all the advantages of cloud hosting: powerful, flexible, affordable, secure, immediate and easy.

Better than a VPS: all the advantages of cloud hosting ✓

Choose where to host your VPS: Madrid or Miami ✓

Next generation platform: guaranteed resources ✓

We help you migrate your services ✓

If you are not satisfied, you get your money back ✓

Cloud VPS is great if:

- you have a website or a blog
- you have a conventional VPS
- you have multiple websites
- you have a shared hosting
- you use opensource solutions
- you are a developer or a designer

**Now all our Cloud VPS with more RAM, Basic Administration and Unlimited Transfer.**  
For more information contact our support department.
