REASON FOR TODAY'S CALL:
 kitchen faucet handle fell off. low water pressure in kitchen faucet. *max will grant access

DESCRIPTION OF WORK PERFORMED:
 -May29: -I replaced the water filter with one that was left onsite from the last visit. -I re-secured the faucet handle that had come loose. -The kitchen faucet spray head is limiting the pressure on one of the spray functions, and the button to switch between spray functions is very stiff. I Took pictures of the spray head and will contact Blanco in regards to the availability of repair parts. -June13: The shut off valves under the sink(connected to the faucet) were starting to break down internally causing bits of rubber from within the valve to break off and clog up the faucet spray head. I repaired the hot and cold shut off valves connected to the faucet, as well as the hot valve connected to the dishwasher, and the cold valve connected to the water filter by replacing the washers, stems, packing, packing nuts, and handles. I then installed the new kitchen faucet spray head(provided under warranty by Blanco) and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour (May29)	\$109.00	\$109.00
1		Repair 1/2" x 3/8" Angle or Straight Stop	\$139.00	\$139.00
