REASON FOR TODAY'S CALL:
My drains in both of my showers is pooling and draining very slowly.

DESCRIPTION OF WORK PERFORMED:
-I use the PowerSpin drain snake to clean both tub drain and tested. -While onsite it was mentioned the toilet in the master was periodically running. I found the flapper chain to be set a little short, causing the flapper to not fully seat. I made an adjustment to the length of the chain and tested. It is now in good working order.
