PHONE 6047233237		EMAIL carolyn.and.martin.2017@gmail.com	

**REASON FOR TODAY'S CALL:**

Bathroom faucet - 2 problems: 1/ When the faucet is turned on, water leaks inside the cabinet 2/ When the faucet is shut off, there is still a very slow drip that does not stop (If there is any possibility of an earlier appointment, we would love to take it. Thanks!)

**DESCRIPTION OF WORK PERFORMED:**

JUNE25:-The cartridge within the lavatory faucet was leaking through the stem. While I didn't notice any water on the top of the sink or leaking below, I believe the water was leaking out of the back of the handle onto the top of the sink, and down to the cabinet below. I replaced the cartridge(K35B) within the faucet and tested by filling and draining the sink multiple times with no sign of leaking from above or below the sink. -I tested the kitchen sink and faucet by filling and draining both sides of the sink. I noticed a leak coming from the garburator drain 90, the inside o fry garburator grinding chamber was also starting to deteriorate. -The laundry hoses look to be the original to the building and should be replaced. JUNE26: -I replaced the garburator with a new Waste King 1001 and tested by filling and draining both sides of the sink multiple times. I also ran the dishwasher through a few fill/drain cycles. -I replaced the laundry supply hoses with braided stainless type hoses and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Lav Faucet Single Lever Cartridge - Standard	\$159.00	\$159.00
1		Supply & Install 1/2HP Waste King 1001 Garburator	\$279.00	\$279.00
