REASON FOR TODAY'S CALL:  
delete garburator.

DESCRIPTION OF WORK PERFORMED:  
-I removed the garburator, installed a basket strainer in it's place, and repiped the ABS drainage. Tested by filling and draining the sink multiple times. -While onsite I was asked to take a look at the toilet as it seemed to take a few flushes to clear on occasion. I tested the toilet and aside from it taking a little longer to refill after each flush it seemed to be in good working order.
