REASON FOR TODAY'S CALL:

1. Shower switch does not convert from tub to a shower fully. So when we switch to the shower, only 2/3 water comes out. 2. We would like to replace shower handle to a different type. 3. Drainage of the tub is slow.

DESCRIPTION OF WORK PERFORMED:

-The garburator grinding chamber had deteriorated to the point that bits off metal were breaking off of the grinding chamber spinning disk. I replaced the garburator with a new Waste King 1001 and tested by filling and draining the sink multiple times while running the garburator. -I installed the new customer supplied shower valve cartridge, trim & handle, and shower head in the guest bathroom. -I installed the new customer supplied shower valve cartridge, trim & handle, and shower head in the master bathroom. Unfortunately the tub spout purchased is not compatible with the 1/2" copper that comes out of the wall. I will have to return on another visit with the correct part. -I used the PowerSpin drain snake to clear hair from the master bathroom tub drain and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Supply & Install 1/2HP Waste King 1001 Garburator	\$279.00	\$279.00
