REASON FOR TODAY'S CALL:

The water pressure is quite low even though it's perfect in the rest of the condo and hoping something could be done to see if the pressure can somehow be increased. Seems all the lines are wide open so maybe it has to do with blockage at some point.

DESCRIPTION OF WORK PERFORMED:

I found the check valve within the faucet head to be limiting pressure. I removed the check valve, reinstalled the spray head and tested. Pressure is back to normal.
