REASON FOR TODAY'S CALL:  
 My deck mount bathtub faucet broke. Cold water keeps running even when it turned off (had to shut down cold water). Unfortunately I couldn't find its brand.

DESCRIPTION OF WORK PERFORMED:  
 The cartridge in the cold handle of the Roman tub filler was broken and would not shut off the flow of water. I replaced the broken cartridge and tested.

TECHNICIAN RECOMMENDATIONS:  
 \*The cause for the cartridge breaking was a thin hard black material that was flowing through the cold supply line in through the cartridge. I flushed out this debris before installing the new cartridge and testing.
