PHONE 604.736.5336		EMAIL wendymccleery@me.com	

REASON FOR TODAY'S CALL:

-Right hand side handle leaking ever so little but time for new cartridges for both I'd say. You did my ones in master baths last year so same ones if you can go back on info. -Tub/shower diverter not working properly. *Ryan: 778.814.3735

DESCRIPTION OF WORK PERFORMED:

OCT18: -I found the copper lines under the powder room lavatory faucet(integral to faucet) to be twisted. I will find a replacement faucet that matches the style. -The Grohe shower valve diverter in the master bathroom is stiff, hard to pull/push and the screws securing the trim adaptor are seized/broken. NOV19: (POWDER ROOM) The shut off valves under the sink(connected to the faucet) were starting to break down internally. I first repaired these valves by replacing the washers, stems, packing, packing nuts, and handles. I then installed the new lavatory faucet and mechanical drain assembly. Tested by filling and draining the sink multiple times. (MASTER BATHROOM) I installed the new shower diverter supplied by a Grohe and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
3.5		Discount Labour	\$99.00	\$346.50
1		Cassidy Faucet 3597LFMPULHP	\$295.00	\$295.00
