PHONE 604.537.3776 C		EMAIL d_nikzad@hotmail.com	

REASON FOR TODAY'S CALL:
Laundry shut off valves leaking from stem.

DESCRIPTION OF WORK PERFORMED:
-I repaired the hot and cold laundry shut off valves by replacing all the moving parts within them?the washers, stems, and orings. -While onsite it was mentioned the guest bathroom shower head was leaking and the toilet in the same bathroom was running. I was able to get the shower head to stop leaking by adding Teflon tape to the threads where the head connects. I replaced the toilet fillvalve, flapper, and supply line. Tested and in good working order.
