REASON FOR TODAY'S CALL:

Hi Darren, I've got a toilet that is acting up over here. Water level drops in take slowly and refills every 3 minutes or so. I tried replacing the flapper today but no clear improvement.

DESCRIPTION OF WORK PERFORMED:

The fillvalve overflow hose wasn't cut during installation. The full length of the hose was pushed down the flushvalve overflow tube and was causing a siphone that slowly sucked water out of the tank.
