PHONE 604.537.3776 C		EMAIL d_nikzad@hotmail.com	

REASON FOR TODAY'S CALL:
 "Water flow from the main shower is low. I think the cartridge needs to be replaced."

DESCRIPTION OF WORK PERFORMED:
 The shower valve integral shut off valves were failing, the cartridge was clogged full of debris that could not be cleaned out, the valve cover had a slight leak, and the shower head was full of debris as well. I first repaired the integral stops by replacing the washers, stems, packing, and packing nuts. I then flushed the lines before installing the new cartridge(Temp ii), Grohe valve cover, Grohe valve trim & handle, and shower head. Tested and in good working order.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
