REASON FOR TODAY'S CALL:

The hallway bathroom toilet is leaking a steady stream into the bowl now... concerned about flooding while I'm away. You had a look at this a while back and I forget what your diagnosis was... It's the Carama toilet. You already replaced internal mechanism in the master bath toilet. The hallway one is same vintage.

DESCRIPTION OF WORK PERFORMED:

-The shut off valve for the toilet was not fully shutting the water off. I first repaired this valve by replacing the washer, stem, packing, packing nut, and handle. I then replaced the fillvalve, flushvalve gasket, and supply line. Tested and in good working order.
