PHONE 604.723.1606		EMAIL bojan.ramadanovic@gmail.com	

REASON FOR TODAY'S CALL:
 Toilets are filling very slowly. Shut off valve doesn't alter flow much. Need shut off valves replaced for two toilets.

DESCRIPTION OF WORK PERFORMED:
 I repaired both wc shut off valves by replacing the washers, stems, packing, packing nuts, and handles. The en-suite toilet fillvalve is clogged up internally and the overflow tub is cracked. Given the age and model(Crane Vacuum Assist) of the toilet, I recommend replacement over repair.

TECHNICIAN RECOMMENDATIONS:
 TOILET MEASUREMENTS. EN-SUITE: Elongated. Flange is 11.5" from back wall. 29.5" from floor to underside of porkchop countertop. 28.5" from floor to underside of wood bracing under porkchop countertop. GUEST BATHROOM: Elongated. Flange is 12" from back wall. 29.5" from floor to underside of porkchop countertop. 28.5" from floor to underside of wood bracing under porkchop countertop.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
