REASON FOR TODAY'S CALL:

I would like to arrange the service for this unit: drain clean connection checks. Also, if you could check whether the dryer and washer each have a separate power wall socket. I understand the current machines share one power wall socket whereas the front load dryer and washer usually each requires its own power wall socket. *no buzzer, concierge will let me up.

DESCRIPTION OF WORK PERFORMED:

I cleaned the tub and lavatory drains and tested.

TECHNICIAN RECOMMENDATIONS:

I checked behind the washer/dryer and there appears to only be one power outlet in the wall.
