REASON FOR TODAY'S CALL:  
 Check seal under guest bathroom toilet. Replace lavatory drain assemblies.

DESCRIPTION OF WORK PERFORMED:  
 -I lifted the toilet and found that there was a wax ring installed but it had a plastic collar which I believe was noted in the installation instructions of this particular toilet as being unacceptable for use. I replaced the wax ring with new and reinstalled the toilet. Tested and in good working order. -I replaced both lavatory drain assemblies with push style drains and tested by filling and draining the sinks multiple times. -I re-secured the tub/shower diverter knob in the guest bathroom and tested.
