REASON FOR TODAY'S CALL:

The bathroom sink monster is back and he means business (basically sink is slow draining and I haven't managed to pull all the goo out). Second issue is a potential leak - I have a crack in my ceiling not far from my front door. His name is Wilbur and he's actually very friendly. He is a bit brown but dry to the touch and there has been no flooding or anything like that. The concierge has not been able to get a hold of the people upstairs to determine if they had an overflow or anything like that. However, I would like you to take a look at it and determine if I need to get something fixed. Thank you so much! Rachel :)

DESCRIPTION OF WORK PERFORMED:

-I used the PowerSpin drain snake to clean the lavatory sink drain and tested. -The point in which staining was noticed in the ceiling near the entryway is concrete so I'm not sure there's anything to worry about but I cannot say what could have caused it.
