REASON FOR TODAY'S CALL:  
Leak coming from toilet supply.

DESCRIPTION OF WORK PERFORMED:

ENSUITE BATHROOM: -The leak was coming from the stem of the toilet shut off valve, and the toilet fillvalve was not properly shutting the water off when the tank was full. I repaired the shut off valve by replacing the washer, stem, packing, packing nut, and handle. I then installed a new fillvalve and supply line and tested.  
 GUEST BATHROOM: The fillvalve float was starting to stick on the way up which eventually would cause the toilet to run. I installed a new fillvalve and supply line. While the shut off valve for this toilet wasn't leaking I made the same repairs as I did to the en-suite bathroom shut off valve to mitigate the chances of this valve leaking in the future.

| QTY. | CODE | DESCRIPTION  | UNIT PRICE | PRICE    |
|------|------|--|------------|----------|
| 1    |      | Replace toilet FillValve - standard                | \$159.00   | \$159.00 |
| 1    |      | Replace toilet FillValve - ADD-ON PRICING          | \$59.00    | \$59.00  |
