REASON FOR TODAY'S CALL:

Hi Darren, I think the fill valve on my Toto toilet needs replacing(at the end of the tank fill, there is an "air" sound, and sometimes the water keeps running. The water in the tank stays level even after I turn the supply off, so its def not the flapper. However, the water in the bowl, goes down considerably during the time btwn flushes. Do you need me to purchase a replacement fill valve or do you supply?

DESCRIPTION OF WORK PERFORMED:

I replaced the FillValve and supply line in the en-suite toilet and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace toilet FillValve - TOTO Universal	\$179.00	\$179.00
