REASON FOR TODAY'S CALL:

Leaking from bathroom ceiling. I am hoping that the cause of leak can be determined and then repaired. Cut out in ceiling dry wall is already done. A later morning appointment time will mean a shorter drive for me from Surrey. Thank you, Naomi

DESCRIPTION OF WORK PERFORMED:

We tested the tub/shower in unit 2109 by first running the tub spout for 5-10 minutes and saw no sign of leaking. We then filled the tub 8?-12? and drained, still no sign of leaking. We then ran the shower and found that after several minutes water starts to leak below.
