REASON FOR TODAY'S CALL:
Small leak under bathroom sink(basement).

DESCRIPTION OF WORK PERFORMED:
 SEP5: I ran the faucet for a few minutes while filling and draining the sink multiple times. There doesn't seem to be water leaking from the faucet or the drain. Karelia did mention that there is often water being splashed on the countertop and not cleaned up. I believe water from the countertop is leaking between the mirror and the countertop, as well as between the sink and the countertop. NOV28: -Karelia purchased a new Grohe kitchen faucet but when we opened the box we found a part of the faucet to be broken. -I siliconed around the top of the countertop behind the lavatory faucet in the basement.
