REASON FOR TODAY'S CALL:
 The hot water shutoff valve for our ensuite vanity leaks badly when the water is turned on (presently turned off) and the taps in the vanity are loosely fastened to the countertop. Both valves should probably be replaced. The armored hoses between the hot and cold shutoffs and the taps are in poor shape and should be replaced. The building has a recirculating hot water system and I have detailed written instructions regarding where the vanity riser shutoff and hot water recirc shutoff are. I believe the strata requires 48 hour notice of shutoff.

DESCRIPTION OF WORK PERFORMED:
 We located the main shut off valves, replaced the hot and cold angle stops under the ensuite lavatory sink, and tested. During tested I noticed the cold supply line was leaking. I replaced this supply line and tested again.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Uponor(Wirsbo) Angle Or Straight stop - Difficult Access	\$169.00	\$169.00
1		Replace Uponor(Wirsbo) Angle Or Straight stop - ADD-ON	\$59.00	\$59.00
1		20? Braided Lav Supply	\$10.00	\$10.00
