REASON FOR TODAY'S CALL:
 -water leaking in Elevator Room

DESCRIPTION OF WORK PERFORMED:

-when i arrived the water had stopped dripping from ceiling in elevator room. Renada mentioned that the leaking occurred around weekends when the laundry machines were in heavy use. We ran water through all laundry drains at the same time to try and recreate this leak but after 20minutes of flushing did not notice any leaking. We then entered unit 101, which is above where the leaking occurs and opposite the laundry drains, and filled and drained the tub. This didn't create any leaking either. I recommended to Renada that she give us a call the next time she noticed any water dripping into the elevator room and we would then try and track it down.
