REASON FOR TODAY'S CALL:

-replace kitchen faucet(supplied by owner) -shower cartridge was just replaced by Latham's but they are still having an issue with hot/cold water -filtered water tap dripps after use. ---CALL 30 MINUTES BEFORE

DESCRIPTION OF WORK PERFORMED:

-inspected kitchen faucet and found small amount of water dripping down the spray hose coming from the connection between the spray head and spray hose. I tightened this connection. I also noticed that any water that splashed onto the counter will find its way through the counter to the underside into the cabinet.

TECHNICIAN RECOMMENDATIONS:

-make sure when using kitchen faucet that water splashed onto the counter is dried up.
