PHONE 604.699.5261		EMAIL virap@dodwell.ca	

**REASON FOR TODAY'S CALL:**

-shower steamer leaking into unit below. ---anytime between 9-12 the concierge will give us access.

**DESCRIPTION OF WORK PERFORMED:**

-ran the shower for 10 minutes with no signs of water in ceiling below. -filled and drained the bathtub with no signs of water in the ceiling below. -ran the steamer for 40 minutes(2 full cycles) with no signs of water in the ceiling below.

**TECHNICIAN RECOMMENDATIONS:**

-after speaking with Alon, it was brought to my attention that while the steamer is on the shower head may have been directed towards to shower handle/trim. this area is siliconed but it is not meant to have water directly aimed at it for extended periods of time. Alon is now aware of this and is going to make sure the shower head is not aimed in this direction during his steam/showers.
