REASON FOR TODAY'S CALL:

-lav faucet tap in powder room flew off while an electrician was washing his hands. find out why this happened and check all other bathrooms to ensure this doesn't happen again. ---Concierge will let you in

DESCRIPTION OF WORK PERFORMED:

-the wall mounted faucet in the powder room seemed to be secure when i arrived, it is possible that the electrician re-installed. i removed anyway and reinstalled to be sure. there is a set screw that holds the faucet from popping off the wall when in use, this set screw must have loosened over time. i reinstalled and secured this set screw. -all other faucets are of a different type, they are mounted to the counters, they are all secure.
