REASON FOR TODAY'S CALL:
 -leak under kitchen sink

DESCRIPTION OF WORK PERFORMED:
 -inspected kitchen faucet. found that the connection between the spray head and the spray hose was loose. the water from this connection was leaking right through the neck of the faucet and finding its way to the underside of the kitchen sink. -i tightened this connection and tested.

TECHNICIAN RECOMMENDATIONS:
 -the kitchen faucet is functioning normally but it does show signs of wear. i suggest that the next time this faucet causes a problem it be replaced rather than making any repairs.
