REASON FOR TODAY'S CALL:

"My toilet continuously flushes. When I tried to take a look at it, and liften up the black balloon, one of the joints on the handle broke."

DESCRIPTION OF WORK PERFORMED:

*ARRIVED @ 10:45am--the shut off valve for the toilet would not turn off. the toilet fill-valve would not stop running and cause water damage so we contacted the strata manager and they contacted Hillcrest to come and shut down the water to the riser. *HILLCREST TECH(Harvey)ARRIVED AT 1PM--the water was shut down @ 1:25pm, I replaced the WC shut off valve and Harvey re-pressurized the riser at 1:40pm and left at 1:45PM. Finally I replaced the toilet fill-valve and flapper. Tested and in good working order.
