REASON FOR TODAY'S CALL:
 -toilets backing up

DESCRIPTION OF WORK PERFORMED:
 the guest toilet and ensuite toilet sharing the same wall were backing up as well as the shower in the ensuite and lav drain in the guest.(the lav sink in the ensuite didn't seem to be affected at all) this blockage was far enough down to block all of these fixtures. JULY5-made visit with big drain snake but Scott had to leave early. we rescheduled for the following week. JULY8-used k45 drain snake through the shower drain in the ensuite to clear blockage. the blockage cleared on the 4th run down the drain. whatever caused the blockage was broken up and drained through, nothing was stuck to the snake tip on any of the runs.
