REASON FOR TODAY'S CALL:
 -remove and clean thermostatic cartridge in shower

DESCRIPTION OF WORK PERFORMED:
 -removed thermostatic cartridge in shower. i found a small amount of debris on the filter of this valve, i cleared this debris away and re-installed this cartridge.

TECHNICIAN RECOMMENDATIONS:
 -under normal use the shower temperature works fine. the issue only arises when you have 2 shower heads on, turn the temperature all the way past the cold point and try and turn it back. i suggest not turning the shower to this position. -if this issue continues to be a problem, or gets worse we will then need to contact Donbracht and possibly order replacement parts.
