**REASON FOR TODAY'S CALL:**

-leaking reported in ceiling of #2501. NOTE: repairs to a leaking shower in #2601 have recently been made by another plumbing company

**DESCRIPTION OF WORK PERFORMED:**

Inspected ceiling above shower in 2501. There was clearly water damage present. The ceiling however was dry when I was inspecting it. I cut open the drywall. People in 2601 were using their shower and could hear water running through the drain. No signs of water leaking, nor was there any moisture present in the ceiling space. I believe this damage could be from the previous leak as there was no leak present at this time, nor was there any moisture.
