REASON FOR TODAY'S CALL:

-under-mount kitchen sink fallen from counter.

DESCRIPTION OF WORK PERFORMED:

-removed old silicone on kitchen sink attached 1 L bracket as well as strap iron on both corners to support sink properly. -filled both sinks went to drain and realized drain was plugged. i used the PowerSpin Drain snake, but was not long enough, Darren went and grabbed the Ridgid k400, and 3 try's with putting the 75 ft cable thru...success!

TECHNICIAN RECOMMENDATIONS:

-the blockage seemed to be quite far down the line. roughly 40'-50'. -there most likely is a long stretch of horizontal drainage before the drain joins the main drain line. i strongly recommend using lots of water during and after using the garburator to help flush away the food debris.
