REASON FOR TODAY'S CALL:
 -clogged drain in kitchen of factory.

DESCRIPTION OF WORK PERFORMED:
 -Double compartment sink in kitchen was plugged, tried with the hand held auger but could not get through. Darren dropped off the big machine(K400) and I was able to unplug the drain. Upon tightening up the old plumbing underneath I noticed a few leaks, I tried tightening up the fittings but the leaks remained. -Removed both kitchen sink strainers & replaced. Re-piped the drainage under double compartment sink. I re-piped in such a way that would allow for easier access in the case of future drain blockages. -Replace faucet in laundry tub sink beside double compartment sink, as per Daniel's request.
