REASON FOR TODAY'S CALL:
 -tub spout loose

DESCRIPTION OF WORK PERFORMED:
 SEP19-inspected tub spout an found that there were no inserts used to mount the spout bracket, screws were just driven into the drywall. these screws were coming loose. set up time to return with inserts and screws. SEP20-the hole in the tile surrounding the tub spout nipple coming out of the wall is quite large allowing only 2 inserts to be installed. i installed the inserts, used silicone on the back of the mounting bracket and secured the mounting bracket with 2 screws. i then attached the tub spout to the mounting bracket.

TECHNICIAN RECOMMENDATIONS:
 this tub spout is quite heavy and with the hole in the tile being cut so large allowing only 2 screws to secure it to the wall it will loosen up again if bumped with too much force.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1.5		Labour	\$99.00	\$148.50
			SUBTOTAL:	\$148.50
