**REASON FOR TODAY'S CALL:**

-3 toilets in the womens washroom are leaking water when the toilet is flushed.

**DESCRIPTION OF WORK PERFORMED:**

-replaced vacuum breakers on all 4 toilets as per Jerry's request. While replacing the vacuum breakers i noticed the spud nuts were also loose, i tightened these nuts. -toilet on the far left; the integral shut off would spit water when turned on or off. I had to shut down the cold water to the club to work on this toilet. I let Jerry as well as Darcy see the problem with the integral shut off. Jerry mentioned that this could be fixed in the future on another call out.(all 4 toilets are American standard)
