PHONE 604.836.5602		EMAIL racheal.Meiri@gmail.com	

REASON FOR TODAY'S CALL:
 -we were called out for a gas leak on the 8th, it is still present.

DESCRIPTION OF WORK PERFORMED:
 -found a very small leak at the flared connection of the S/O valve side(wall). on our previous visit we sealed a leak on the stove side connection. i purchased and replaced this gas flex hose and tested. no leaks present. -while onsite i was shown the lavatory faucet in the powder room(main floor) had no cold water. the cartridge in the cold side of the faucet was seized up and would not turn. i removed the handle and cartridge to try and free it up, i could not. i looked for a brand name on the faucet to see about ordering a replacement cartridge but could not find one. i took pictures of the faucet and cartridge to our wholesaler and they didn't recognize either.

TECHNICIAN RECOMMENDATIONS:
 -in order to find the right part for the lav faucet i would need the brand name. if you could find this out i could start the hunt:) --- failing this, replacement would be necessary.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$99.00	\$99.00
1		1/2"FIPX48 Gas Flexible Hose	\$25.00	\$25.00
