REASON FOR TODAY'S CALL:

-issues with toilet. -caulking of tub. this will need to be done on 2 separate visits, for now just remove old silicone so we can air it out before re-caulking. -lav sink dripping

DESCRIPTION OF WORK PERFORMED:

---OCT31- removed old silicone from around tub trim. replaced fill-valve, flapper and supply line in guest toilet. the handle on the lavatory faucet was loose and not fully shutting off the flow of water, i adjusted the lav handle and it is now in good working order. ---NOV1- returned and finished siliconging around tub.

TECHNICIAN RECOMMENDATIONS:

-the old silicone around the tub was quite dirty and had a lot of water resting on it. i strongly recommend keeping the top lip of the tub area clean and dry or the new silicone will stain again.
