REASON FOR TODAY'S CALL:
 -leak under lavatory

DESCRIPTION OF WORK PERFORMED:

DEC10---Basin faucet needs to be replaced. Owners will call us back to schedule appointment when they purchase a new one. JAN2---Replaced lav faucet with customer supplied faucet. Received a call from Daniel latter in the day informing us the faucet was leaking. Returned to find the cold side copper integral supply was leaking. Removed the faulty part so Daniel could exchange with a new part at Rona(where the faucet was originally purchased). JAN6---Installed replacement part that Daniel picked up from Rona. Inspected for leaks, and all seems to be in good working order.
