**REASON FOR TODAY'S CALL:**

-issue with tub drain(sounds like it will require replacement) -issue with tub spout diverter.

**DESCRIPTION OF WORK PERFORMED:**

-tub drain was not functioning properly and could not be repaired. I replaced the the tub drain with a lift and turn style drain and showed the tenant how it works. -I removed the tub spout diverter actuator from the tub spout, it looked to be in good shape and no internal parts were missing. I reattached the diverter actuator and tightened snugly. It is now in good working order.
