REASON FOR TODAY'S CALL:

"I had you in I think 1-2 years ago to replace our shower head in our master bathroom - for the bath. It is, I think, a Moen or Kohler 4 head spray shower head with hose. The hose has pulled out from the attachment to the tiled wall and is spraying water. Not sure if it can be fixed or needs to be replaced. Also, our sink in master bedroom is draining slowly and may need to be snaked."

DESCRIPTION OF WORK PERFORMED:

MASTER BATHROOM---replaced shower spray hose. ---made an adjustment to the tub drain stopper. ---showed George how to remove the lav drain stopper to clear possible debris from drainage in future.
