REASON FOR TODAY'S CALL:
 Water leaking under lavatory sink when faucet in use.

DESCRIPTION OF WORK PERFORMED:
 MARCH18---found the leak to be coming from the lavatory faucet. The faucet was installed in a very tight space causing there to be excess pressure on the faucet integral supply lines. One of these lines snapped off. I removed the sink and suggested calling a granite guy(Bob) to cut the opening in the countertop larger so the sink can be properly installed. The faucet will also require replacement as it is broken. Installed 2 retro stops on the Hot & Cold shut off valves under the lave sink as the old ones were not fully turning the water off. MARCH26---Purchased new Delta faucet, mounted faucet and new drain to the lavatory sink, mounted sink, and re-piped ABS drainage.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
3		Labour	\$99.00	\$297.00
1		Lahara Lav Faucet 8"CC 3538MPUDST	\$209.00	\$209.00
