REASON FOR TODAY'S CALL:

Garburator is not functioning. There is definitely power to it as when we switch it on we can hear it humming. However, it makes this noise for maybe 20 seconds then trips the reset button. There is nothing that I can see that is obstructing the blades as they move freely when pushed. I believe this is a new one as of July last year too. Hoping to schedule an appointment as late as possible in the day. I work in North Vancouver. Thanks!

DESCRIPTION OF WORK PERFORMED:

-unjammed garburator, removed small piece of metal. Tested by filling sink and draining with garburator on.
