REASON FOR TODAY'S CALL:

"I have a leaking pipe under the sink in my kitchen and a problem with the pipes in the washroom area as well - the toilet won't stop filling."

DESCRIPTION OF WORK PERFORMED:

TOILET: Replaced fill-valve, flapper, and supply line. KITCHEN SINK: Unjammed the garburator. I let tenant know it should be run once or twice a week to keep it from rusting up again. Filled both sides of the sink and drained, I did not notice any water leakage under the sink. I did notice that the kitchen faucet spray head has a crack in it and leaks when faucet in use. This leaking however does not seem to be leaking to the underside of the sink. LAVATORY SINK: I filled and drained the bathroom sink but did not notice any leaking below. The lavatory faucet seems to leak through the cartridge when in use.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Toilet Fill-Valve, Flapper, Supply - Standard	\$169.00	\$169.00
SUBTOTAL:				\$169.00
GST (5%):				\$8.45
