REASON FOR TODAY'S CALL:

bathroom corner near entrance: -leak possibly from,sink, occurs several minutes after running water.

DESCRIPTION OF WORK PERFORMED:

I noticed that the countertop had water on it when i arrived, i dried this off, filled and drained the sink multiple times with no signs of leaking. i asked the tenants if they used the sink to wash there face, and after doing so if they noticed water on the countertop, they said they did. The countertop was graded down to the left, i informed the tenants that they would have to be more aware of the water splashing onto countertop as this water was finding it's way left towards the wall and down onto the floor.
