REASON FOR TODAY'S CALL:  
 Leaky pipe under the sink. \*call 15 before heading over.

DESCRIPTION OF WORK PERFORMED:  
 I disassembled the ABS drainage under the kitchen sink, I did not notice any signs of cracking or wear. I re-assembled the drainage and tested by filling both sides of the sink and draining twice, there is no signs of leaking.

TECHNICIAN RECOMMENDATIONS:  
 I cannot say with any certainty why the drainage was leaking at this connection because there are no obvious signs of damage or wear and after re-assembling the drain does not show signs of leaking. Although it is not leaking, the tenant was asked to leave a small container under this connection and monitor it.
