REASON FOR TODAY'S CALL:  
 -kitchen sink drain blockage.

DESCRIPTION OF WORK PERFORMED:  
 Sep8---Cleaned kitchen sink drain using our PowerSpin drain snake. The blockage seemed to be between 16'-20' down the line. It is hard to say what caused the blockage as nothing was pulled out, whatever caused the blockage was broken up and flushed through. During testing the drain backed up again, and this time much further down the drain. Ou 25' PowerSpin drain snake could not reach this blockage. Sep10---Used our K400 drain cleaning machine to clear the blockage(roughly 30' down). Tested by filling and draining the sink twice.

TECHNICIAN RECOMMENDATIONS:  
 The drainage under the kitchen sink was leaking in 2 areas, I used tape to temporarily fix the issue but I recommend replacing the basket strainers and re-ripping the drainage.
