REASON FOR TODAY'S CALL:

"I have a small drip under my bathroom sink that is slowly becoming a big drip/leak ? and my toilet is not always flushing properly and sometimes "runs" between flushes? This is a small personal training studio/ gym. Thx!"

DESCRIPTION OF WORK PERFORMED:

Replaced the mechanical lavatory drain and repiped ABS drainage, tested by filling and draining the sink multiple times. The toilet requires a new fillvalve flapper and supply line but the shut off valve leading to the toilet does not fully shut the water off. I replaced the flapper for now.

TECHNICIAN RECOMMENDATIONS:

The building's mechanical contractor(Latham's I think) will have to schedule a water shut down for the unit before the wc valve can be repaired.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Mechanical Lav Drain & Re-Pipe Drainage	\$189.00	\$189.00
