PHONE 604-722-1239		EMAIL alison.m.muller@gmail.com	

REASON FOR TODAY'S CALL:

"I have a leak under my sink, as well as leaky hot and cold water on/off valves, the cold water doesn't turn all the way off, and water does not flow to my dishwasher. I have sent a more detailed description and photos with a quote request."

DESCRIPTION OF WORK PERFORMED:

The kitchen faucet was leaking even when not in use. The leaking was occurring internally and through to the cabinet below. I replaced the faucet with a new Delta Palo. The shut off valves under the kitchen sink were not fully shutting the water off, the building manager(Paul) shut down the water to the risers so I could repair the valves, and suggested repairing the valves in the bathroom next to the kitchen as they have had issues with these valves in the building. I repaired 5 shut off valves in total; the Hot & Cold under the kitchen sink, the Hot & Cold under the lavatory, and the Cold for the toilet.

TECHNICIAN RECOMMENDATIONS:

I left the old faucet on site.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Delta Palo CP - Pull-Out INSTALLED	\$309.00	\$309.00
5		Repair Angle Stop	\$25.00	\$125.00
